

Aniket Kumar Mishra

📍 Bhopal, (M.P.) ✉ aniket22mishra2004@gmail.com ☎ 8225822969 🌐 anni990.me 🌐 in anni990

Education

B. Tech - Sagar Institute of Research and Technology, Bhopal (M.P.) RGPV	Jul 2022 – June 2026
• Artificial Intelligence and Machine Learning CGPA: 8.21/10.0	
12th - New Shanti Niketan Higher Secondary School, Vidisha (M.P.) MPBSE	March 2021 – Feb 2022
• PCM Percentage: 86.2/100 %	
10th - Saket MGM Senior Secondary School, Vidisha (M.P.) CBSE	March 2019 – Feb 2020
• ALL Percentage: 80.2/100 %	

Technologies

Languages: Python, Javascript, SQL

Soft Skills: Quick learner, Team playership

Tools: Git, Github, Postman, Docker

Technologies: GenAI, Langchain, Flask, FastAPI, Node.js MySQL, MongoDB

Projects

AI Microservice - Integrated RAG System (<i>TrioTech Bizserve Pvt. Ltd.</i>)	Oct 2025
- Build a python flask based microservice (apis) for Node.js backend to integrate RAG Model. - Created required APIs for AI processing unit containing multiple LLM calls with vector knowledge base integration. - Tools Used: Python (Flask), Langchain, ChromaDB, LLMs.	
Green Sathi - Krishi Guru - Industry Project	May 2025
- A platform where farmers can communication with Chat-bot in multiple languages, analysis of plant image, Soil report, Mandi data (approx 40,000 rows/per day), and weather analysis. - Implemented 5 LLMs APIs with fallback for chatbot and ML Algorithm like neighbours ballTree. - Skills: Git, Python (Flask), Data Analysis, LLM - APIs.	
RenewForecast - AI Powered Energy Generation Prediction	March 2025
- NTCP Problem state to predict the generation of energy by wind and solar plant in the next 5 days. - Collected Solar and Wind dataset and trained ML Model with 86% accuracy with KNeigheestRegres-sor. - Tools Used: HTML, Tailwind CSS, Chart.js, Github, Machine Learning.	

Internships

SDE Intern , TrioTech Bizserve Pvt. Ltd (In-office)	Bhopal, M.P.
- Learned Javascript for node.js backend integration with flask based microservice. - Implemented RAG model for specified Knowledge Base training and LLM integration. - Integrated python microservice APIs into node.js backend.	Aug 2025 – Feb 2026
AI Intern , Inventohack Innovation Pvt. Ltd. (Hybrid)	Bhopal, M.P.
- Developed and deployed two complete Full Stack Application integrated with AI systems. - Implemented LLM for VoiceBot and Chatbot with other single processing units using Machine Learning Models.	April 2025 – July 2025
Technical Assistant , Raj Institute of Coding and Robotics. (In-office)	Bhopal, M.P.
- Collaborated with the tech team to support the back-end development. - Managed and updated Learning Management System contents on 60+ topics for Python with Data Science batches along with doubt solving sessions.	Aug 2024 – Feb 2025

Interests

Biking, **Playing Volleyball** and Cricket, Exploring new Tech for research.

Achievements and Certifications

Code Copyright: A Model for Prediction of Cardiovascular Diseases Using Machine Learning.

NPTEL Certification Course - Python for Data Science **90%**.

IIT BHU Techfest - 1 Billion Row Data Anaylsis Challenge - **3rd** Position.
