Education

B. Tech - Sagar Institute of Research and Technology, Bhopal (M.P.) RGPV	Jul 2022 – June 2026
• Artificial Intelligence and Machine Learning CGPA: 8.21/10.0	
12th - New Shanti Niketan Higher Secondary School, Vidisha (M.P.) MPBSE	March 2021 – Feb 2022
• PCM Percentage: 86.2/100 %	
10th - Saket MGM Senior Secondary School, Vidisha (M.P.) CBSE	March 2019 – Feb 2020
• ALL Percentage: 80.2/100 %	

Technologies

Languages: Python, SQL, NoSQL, js

Soft Skills: Quick learner, Team playership

Technologies: Github, MySql, MongoDB, Backend (flask/Node.js), Data Analysis

Projects

Microservice - Build RAG model - Internship (TrioTech Bizserve Pvt. Ltd.)	Oct 2025
• Build a python flask based microservice (apis) for Node.js backend to integrate RAG Model .	
• Created required APIs for AI processing unit containing multiple LLM calls with vector knowledge base integration.	
• Tools Used: Python (Flask), Langchain, ChromaDB, LLMs.	
Green Sathi - Krishi Guru - Industry Project	May 2025
• A platform where farmers can communication with Chat-bot in multiple languages, analysis of plant image, Soil report, Mandi data (approx 40,000 rows/per day) , and weather analysis.	
• Implemented 5 LLMs APIs with fallback for chatbot and ML Algorithm like neighbours ballTree .	
• Skills: Git, Python (Flask), Data Analysis, LLM - APIs.	
RenewForecast - AI Powered Energy Generation Prediction	March 2025
• NTCP Problem state to predict the generation of energy by wind and solar plant in the next 5 days.	
• Collected Solar and Wind dataset and trained ML Model with 86% accuracy with KNeighestRegres-sor .	
• Tools Used: HTML, Tailwind CSS, Chart.js, Github, Machine Learning.	

Internships

SDE Intern , TrioTech Bizserve Pvt. Ltd (In-office)	Bhopal, M.P. August 2025 – Present
• Learned Javascript for node.js backend integration with flask based microservice .	
• Implemented RAG model for specified Knowledge Base training and LLM integration.	
• Integrated python microservice APIs into node.js backend.	
AI Intern , Inventohack Innovation Pvt. Ltd. (Hybrid)	Bhopal, M.P. April 2025 – July 2025
• Developed 2 full-stack web applications containing AI processing features.	
• Implemented real-time data processing and analysis of data for Machine Learning.	
Technical Assistant , Raj Institute of Coding and Robotics. (In-office)	Bhopal, M.P. Aug 2024 – Feb 2025
• Collaborated with the tech team to support the back-end development.	
• Managed and updated Learning Management System contents on 60+ topics for Python with Data Science batches along with doubt solving sessions.	

Interests

- Riding Bike and Bicycle, **Playing Volleyball**, Listening Music

Achievements and Certifications

Code Copyright: A Model for Prediction of Cardiovascular Diseases Using Machine Learning.

NPTEL Certification Course - Python for Data Science **90%**.

IIT BHU Techfest - 1 Billion Row Data Anaylsis Challenge - **3rd** Position.
